Full-Stack Developer & Computer Science Graduate specializing in scalable web applications and cross-functional team leadership. Expert in modern frameworks with a proven track record of delivering innovative technology solutions.

KEY SKILLS

- **Programming Languages:** Go, C#, Java, Typescript, JavaScript, Python, HTML, CSS, SQL, NoSQL, PHP
- **Frameworks:** .NET, Spring, React.js, React Native, TailwindCSS, Vue.js, Next.js
- **Development Tools:** Figma, Docker, Kubernetes, Git, GitHub, AWS, Linux/Unix, Bash, Tex, Pantheon, Drupal
- **Databases:** MySQL, PostgreSQL, SQL Server, MongoDB, Redis, SQLite
- **Development Skills:** RESTful API, Database Design, CRUD Operations, CI/CD, Agile, Scrum
- **Soft Skills:** Problem-Solving, Collaboration, Technical Communication

WORK EXPERIENCE

MegaTransact & MegaBliss LTD ⊕   Remote **Auckland, New Zealand**
Software Developer   *Aug 2025–Present*

- Developed full-stack web applications using **React Native** for mobile frontends and **Node.js** for scalable backend services, implementing RESTful APIs and database integration
- Built responsive user interfaces and features for mobile platforms while developing backend microservices with **Node.js**, ensuring seamless data flow and cross-functional team collaboration

Sydney University Evangelical Union ⊕   **Sydney, Australia**
IT Support Specialist   *Jul 2025–Present*

- Maintaining user data, system administration, and upgrading multilingual webpages using **Pantheon**, **Drupal**, and **PHP**

ArmPOS Australia PTY LTD ⊕   **Sydney, Australia**
Contract POS Technician   *Aug 2025–Present*

- Installed POS systems at retail locations including cafes, restaurants, and stores; provided debugging, maintenance support, and system updates for optimal performance

PROJECT EXPERIENCE

Blotz Task App ○   **Sydney, Australia**
Full Stack Developer   *Jul 2024–Present*

- Developed **RESTful API** using **C# .NET Core** framework with **Entity Framework Core** and **SQL Server**, implementing comprehensive **CRUD operations** for task management functionality and ensuring efficient data management and query performance.
- Implemented daily task list UI in **React Native**, integrating frontend with backend APIs to dynamically render tasks based on date selection with real-time data fetching and state management, and customizing component styles according to design specifications.
- Built responsive user interface with **date picker integration**, loading indicators, and empty state handling, enhancing user experience through intuitive task visualization and navigation.
- Participated in **Agile Scrum** development methodology using **GitHub Projects** for project management, serving as **Scrum Master** to lead weekly stand-up meetings, and facilitating sprint planning and retrospective meetings to ensure efficient project delivery and team collaboration.
- Conducted comprehensive **code reviews** and **pull request reviews** to maintain code quality standards, providing constructive feedback on code structure, performance optimization, and best practices to ensure robust and maintainable codebase across team members.

2025 World Expo Global Youth SDGs Summit Website 🎧🎧 **Sydney, Australia**

Full Stack Developer *Jun 2025–Aug 2025*

- Built responsive frontend with **Vue 3**, **Element Plus**, and **Vite**, featuring news system and exhibition modules.
- Developed **Spring Boot 3** backend with **MySQL**, **MyBatis Plus**, and **Alibaba Cloud OSS** integration for scalable data and image management.
- Implemented dual-system architecture with user portal and **RuoYi**-based admin dashboard, enabling real-time content management without redevelopment.

AI Health Management System 🎧🎧 **Sydney, Australia**

Full Stack Developer *Aug 2024–Oct 2024*

- Designed UML models (e.g., class, sequence diagrams) to streamline project architecture.
- Built a responsive front-end with **Vue.js** for user data input and health report visualization.
- Implemented back-end features using **Spring Boot** including session management and user authentication.

EDUCATION

The University of Sydney **Sydney, Australia**

M.Sc. Computer Science (Distinction) *Feb 2024–Dec 2025 (Present)*

Relevant Coursework: Software Engineering, OOP, Data Structures & Algorithms, Database Systems, Design Thinking, IT Project Management

Soochow University (Taiwan) **Taipei, Taiwan**

B.A. Economics (High Distinction) *Aug 2019–Jun 2023*

COMMUNITY ENGAGEMENT

Sydney University Evangelical Union **Sydney, Australia**

Group Leader *Aug 2024–Present*

- Lead Bible study sessions for 10+ participants and provide IT support, tech setup, and equipment debugging for events

Soochow University Chinese Students Association **Taipei, Taiwan**

Secretariat *Oct 2019–July 2023*

Organised events, including cultural and campus events.

ADDITIONAL WORK EXPERIENCE

Second-hand Bicycle Trade **Sydney, Australia**

Self-employed *Mar 2024–Mar 2025*

Conducted market research, set competitive pricing, sold 24 bikes annually.

Reborn United Property Pty., Ltd **Sydney, Australia**

Assistant Agent *Jun 2024–Oct 2024*

Analyzed real estate trends, provided strategic client insights, delivered customer service and enhanced client engagement.

YT Bathroom Pty., Ltd **Sydney, Australia**

Warehouse Stock Clerk *Jun 2024–Jun 2024*

Managed warehouse operations, product inventory, receiving and shipping.
